ABSTRACT

This bibliography lists 121 books, papers and pamphlets; 306 articles and excerpts from books; and 11 theses dealing principally with persons employed in schools who have less than full professional qualifications including volunteers and nonprofessionals. Most of the items listed appeared in the last five years, but earlier material has also been included. Sources consulted in preparing the bibliography include the Canadian Education Index (CCRE), the Education Index (Wilson's), the Current Index to Journals in Education (CCM), the Cumulative Book Index (Wilson's), Research in Education (ERIC), Education Studies in Canadian Universities (CEA), Directory of Education Studies in Canada (CEA), and Research Studies in Education (Phi Delta Kappa). This bibliography is a companion to Bibliography #15, Differentiated Staffing (SP 004 554, RIE, Apr. 71) although neither bibliography duplicates the content of the other. However, references which originally appeared in Bibliography #7, Teacher Aides ED 037 406), are repeated here. For references in the ERIC system, ED numbers and indication of availability are included. (JS)

PARAPROFESSIONAL SCHOOL PERSONNEL

This bibliography and Bibliography No. 15 are companion bibliographies on staff specialization and utilization in schools. This bibliography is concerned principally with persons who have less than full professional qualifications. Although volunteers and nonprofessionals are not always included under the definition of paraprofessionals, material dealing with their employment in schools has, for convenience, been included here. References which originally appeared in Bibliography No. 7, Teacher Aides, are repeated here.

Bibliography No. 15, it might be noted, deals with differentiated staffing and, while concerned principally with deployment of professionals, includes also general treatments of staffing dealing with both professionals and paraprofessionals. While overlap cannot be avoided, neither bibliography duplicates the content of the other.

Sources consulted in preparing this bibliography include the Canadian Education Index (CCRE), the Education Index (Wilson's), the Current Index to Journals in Education (CCM), the Cumulative Book Index (Wilson's), Research in Education (ERIC), Education Studies in Canadian Universities (CEA), Directory of Education Studies in Canada (CEA), and Research Studies in Education (Phi Delta Kappa). Most of the items listed appeared in the last five years, but earlier material has also been included.

Abstracts of material with an ED number may be found in Research in Education. If marked "Available ERIC," hard copy or microfiche copies may be purchased through the Education Document Reproduction Service of the ERIC system.

Material available from the CTF Library is asterisked.
